MAHAJAYA PRO RECYCLING SDN BHD (676334-P)
(Formally known as MAHAJAYA RECYCLING SDN BHD)

ABOUT US

We, **MAHAJAYA PRO RECYCLING SDN BHD** are a Malaysian based Company incorporated under the company's Act, 1965 on the 27th December 2004. We are a constantly growing company involved in recycling industry for more than 14 years. Our establishment was principally to manage the scrap (Waste Materials) in a professional manner whereby maximizing recycling and minimizing waste for disposal so that our customers can avoid unnecessary cost and, wherever possible, increase revenues.

Our company is managed and employed by a group of people who have vast experience in the recycling industry.

Our **One-Stop-Centre** based on **Total Waste Management** concept covers all aspects of scrap and waste handling and disposal. Our customers gain the dual benefits of suppliers' reduction and reduced management time. With only one company to deal with, our customers have only one contact, one quotation, one pick up, one invoice and one management company that reduce the time required to manage waste.

We are proud about ourselves on providing an efficient and reliable service to all our customers. Our main aim is to provide the best possible service coupled with the best price for the scrap materials we buy.

We offer scrap materials collection services to businesses and factories all over Malaysia.

We can provide your business with the service that you need, at the cost that you want, with the quality you deserve, regardless of size. We service everyone from the individual client to large industrial accounts and we are dedicated to delivering satisfaction.

With a combination of competitive pricing, accurate reporting and unbeatable service, we are the obvious choice for all your scrap metal needs.

BUSINESS PHILOSOPHY

Our business philosophy is very simple. Our customers must be able to concentrate on their primary business while scrap metals / materials are handled smoothly and efficiently like "Clockwork" to avoid any disruptions. Consultation is provided free of charge to improve handling and revenue of your scrap metals. Our prompt personal service and competitive pricing has established a group of long term satisfied clients. **(References are available upon request).**

MAHAJAYA PRO RECYCLING SDN BHD is a professional organization, large enough to handle any scrap materials recycling problem, yet small enough for you to receive immediate answers and results.

MAHAJAYA PRO RECYCLING SDN BHD (676334-P)
(Formerly known as MAHAJAYA RECYCLING SDN BHD)

VISION

We are the safest, most efficient, reliable and environmental friendly processor of any kind of scrap materials. We have accomplished this with the highest level of honesty and integrity within our team. We buy and sell in the current scrap market to provide the best return for all parties involved.

MISSION

We are committed to actively pursue the means for growth and success by providing our employees and customers the opportunity to partner with us to create a long-lasting relationship that embodies the utmost honesty, integrity and professionalism.

OUR SERVICES – DECOMMISSIONING

There may come a time when a telecom service will no longer operate from a particular location. On the other hand, perhaps the site's equipment is so outdated that it is easier to start from the ground up than to try to renovate what is already in place. When either of these problems occurs, site decommissioning is the answer.

Unlike demolition of a simple structure, telecom demolition services are explicitly designed to solve the unique problems that happen when telecom equipment is involved. This can include towers, batteries, internal equipment and hazardous materials.
